## Objective

Designing fulfills my creative thirst, while coding and programming give me the opportunity to create something new that could potentially help others.

## Summary of Experience

Company Branding

Excellent Typography Skills

Creative Thinking Skills

Responsive Design

Mobile Development

## Education

Web Development - 2017 to 2019  
(EAL) Erhvervsakademiet Lillebaelt

Multimedia Design & Com - 2015 to 2017  
(EAL) Erhvervsakademiet Lillebaelt

Bilingual Gymnasium - 2010 to 2015  
Privat Gymnasium Galanta, SK

## Professional Experience

Web designer / developer internship at Witt-Gruppe - from Feb until June 2017  
www.witt-gruppe.eu

The company owns many fashion brands which are popular since the 40's in DE and they are online since 1995. During my internship I was treated as an equal by my coworkers, which gave me the same amount of workload. I was working 37 hours a week, creating landing pages in html/css/js, banners for ads which had the same design in 10x layouts per category. Photoshopping product images/models to aesthetic compositions. More detailed description is available in the recommendation letter.
